EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Computer Science

Chennai, IN

Jun. 2017 – May 2021

EXPERIENCE

Devops Engineer III

Jan 2025 – Present

Swiggy

Bengaluru, IN

- Developed a AI-based CMR Enforcement tool to refine CMR creation process using LLM, AWS lambdas, Python
- Migrated manual custom confluent Kafka provisioning model to automated IAAC based provisioning model with 0 downtime
- Optimized landing traffic using Global accelerators to reduce latency over cross-region communication

Sr. Site Reliability Engineer

Jun 2023 – Dec 2024

Direct I - Zeta Team

Bengaluru, IN

- Led the design and development of multiple enterprise-level automation related to microservice applications saving cost of 1FTE per month using the latest technologies of Python, Jenkins, Helm.
- Designed and implemented alerting schema reducing unwanted alerts by 80% using Helm, Prometheus, Grafana and EKS.
- Wrote in-depth RCAs for incidents' resolution-within SLAs and SLOs ensuring production scalability and stability as a part of IPL2024 campaign

DevOps Engineer II

Sep 2022 – May 2023

Direct I - Titan Email Team

Bengaluru, IN

- Deployed OpenDKIM implementation as a go-service to mitigate excessive RAM consumption using Golang, Linux and AWS
- Automated a password rotation feature to improve security using Python
- Developed serverless implementation to draw mail delivery insights using AWS Lambdas

Operations Engineer

Jun. 2021 – Aug 2022

Newfold Digital

Bengaluru, IN

- Migrated 7000+ on-prem servers to use SaaS for email delivery and security using enterprise software
- Implemented VPS on-prem server migrations and additions as a part of Growth projects

Operations Engineer, Intern

Feb. 2021 – May 2021

Newfold Digital

Bengaluru, IN

- Built an Openshift operator to manifest a highly available private rpm mirror using Golang
- Improved scalability of mirror web app to improvise the package management, deployed in production with an integrated WebUI

DevOps Trainee, Intern

May 2019 – Jun 2019

LinuxWorld Informatics Pvt Ltd

Jaipur, IN

- Designed a Python web app to serve SysAdmin deliverables (site hosting, software installations). Hosted the same on AWS

PROJECTS

Netflix Clone | AWS, EKS, Terraform, Jenkins, ArgoCD, Sonarqube

Feb 2024

- Created a Netflix clone to host streaming service using AWS, Kubernetes, Terraform, Jenkins, ArgoCD, Sonarqube

Industrial Automation bot | AWS, Python, Flask

June 2019

- Developed an automated SysAdmin tool to carry out day-to-day sysadmin tasks

TECHNICAL SKILLS

Languages: Python, Golang, Bash, SQL (Postgres)

Tech: AWS, Linux, K8s(EKS), Terraform, Jenkins, Helm, ArgoCD, Prometheus, Grafana, Jenkins, Flask, Istio

Developer Tools: Git, Docker, Cursor
